## Cooking Demonstration at Our Store All This Week on Thermatic Fireless Cookers

A DOMESTIC SCIENCE expert will be at our store all week in a special cooking demonstration of the Thermatic Fireless Cooker. Let her show you how thoroughly and satisfactorily a Thermatic will cook your dinner while you are engaged elsewhere. Let her show you how the high cost of living can be cut down with the use of a Thermatic. The demonstration is free and should be attended by all housewives who want more freedom from kitchen work, more leisure time and who want to cut down the butcher's and grocer's bills.

Join the Thermatic Cooker Club This Week

SPECIAL Club terms will be offered to 100 club members this week. \$2.00 will put a Thermatic Cooker in your home, and we will arrange convenient club payments.

## Visit Our Phonograph Department and Hear the Wonderful Starr Tone

WE are offering to the music lovers of this city the latest and most wonderful development among talking machines. Because it is fundamentally right in construction, the tone of the Starr is free from any features which you may have thought objectionable

in earlier instruments. The difference is in the tone. There are many distinctive features—for instance, it is the first phonograph primarily designed to play every style of disc record. A phonograph cannot be described. It must be demonstrated. Won't you come in to see the Starr?

### The Starr Solves the Record Question

CHOOSE your records whenever and wherever you will; so long as they are discs, the changeable tone arm and stylus of the Starr will play them and, more than that, will reveal the hidden beauty of tone, which can be brought out only by the Starr. There is no extra charge for this feature, which puts the world's library of records at your command.

Starr Styles—\$50, \$75, \$100, \$150, \$175, \$200

The Sounding Board Horn "Just Like a Violin"

THE Sounding Board Horn of the Starr is made of Adirondack Silver-grain Spruce, the same wood of which all fine violins are made. There is not a joint or metal connection which will retard the magnificent tone. The Violin Wood Sounding Board is the reason for the silvery purity of the Starr tone.

### The "Why" of the "Singing Throat"

A NEWER application of tone principles in the throat and sounding board horn of the Starr has entirely eliminated that characteristic "phonograph tone" long existing in reproduced music. Your most critical inspection is invited, and we will play your favorite music when you call. You will be interested.
